Szilard Mihocsa

Web Developer

Resourceful React Developer with a background in Pharmacy and proven ability to solve complex problems precisely and with simplicity. Passionate for aesthetics and usability ready to help create and maintain innovative products for a great user experience.

Projects

cinemApp - ⎋

Full-Stack movie application built with the MERN stack provides data about movies, directors, genres, and actors. Users can create an account, edit their data, add and delete movies from favorites and delete their account.

meetME - ⎋

Serverless, progressive web application (PWA) with React using a test-driven development (TDD) technique. The application uses the Google Calendar API to fetch upcoming events.

chatME - ⎋

Native mobile application built with React Native, Expo and Firebase. Using their iOS or Android device, users can chat with each other, send images and share their current location.
